

**2003-47**

I am writing to express my disapproval for the proposed new court rule 2003-47. As a veteran who was exposed to asbestos while serving my country, I am appalled that the Supreme Court would contemplate violating the constitution and take a back door approach to deny my rights and other veterans that were exposed to asbestos. Do the right thing and side with veterans and other hard working people who have sacrificed their bodies for their country or their company. Do not let the lawyers from Dickinson Wright who are representing these corporations get away with this corporate misconduct. Do the job you were sworn to do, interpret the law and not make law.   Regards Dale Blair.
